

User story	Task	Task assigned to	Estimated effort	priority	Done	actual effort	done by	note
As a user I want to visualize the data.	boxplot	Chris	6	High	no	14 hours	Chris	Barchart markup took a lot of time.
	state transition matrix	Chris	12	medium	no			
As a user I want to perform comparison analysis.	implement lag analysis	Louis	10	Medium	yes	12 hours	Louis	only focus on lag analysis
	time difference analysis	Louis	8	Medium	no			
As a user I want to have a wizard for reading files	End of file count from end of file instead of start	Paul	1	low	no			
	specify columns in the xml file	Paul	6	medium	no	6 hours	paul	Excel files are correctly read; header row fails and null types don't work yet.
	Possibility to add filename as column (metadata)	Paul	4	high	no			
	create xml generating wizard	Paul	12	Medium	yes	14 hours	Paul	Does not work completely
As a user I want to specify the analysis that I want to perform.	code	Boudewijn	6	High	yes	3 hours	Boudewijn	
	Multiple tables in analyse	Boudewijn	14	High	yes	4 hours	Boudewijn	
	functions	Boudewijn	4	Low	no			
As a user I want to be able to specify the columns i want to write to a file	select table	Chris	3	Low	no			Not enough time
	write to file	Chris	4	Low	no			
Chunking	Specify the chunk	Jens	12	High	yes	8 hours	Jens	
	Perform functions	Jens	6	Medium	yes	6 hours	Jens	
	Count code	Jens	2	Medium	yes	2 hours	Jens	

additional tasks

Task	Task assigned to	Estimated effort	priority	Done	actual effort	done by
Refer to table that doesnt exist				yes	2 hours	Boudewijn
refactor parse codes				yes	3 hours	Boudewijn
codes refactor				yes	4 hours	Jens
difference				yes	3 hours	Jens
nullvalues				yes	3 hours	chris

Issues

Not enough time spent on project. Tasks not finished. Solution work harder to make a final rush.
Future tables -> referring to non-existing was harder than expected, solution is a bit less safe but works more easy.
Nullvalues are not working very well in our system. Every type is supposed to be a nullvalue but the NullValue is too high in our hierarchy.
