

Sprint plan 7  
context: Health Informatics  
group: 3

User story	Task	Task assigned to	Estimated effort	priority	Notes
As a user I want to be able to specify the input	Wizard for xml file	Paul	8	very high	Wizard should contain: amount of columns, instantly read created xml,
	count from end of file	Paul	3	very high	
As a user I want to be able to save files and specify wich part of the datamodel should be saved.	wizard for saving files, what contents of the model should be saved.	Chris, Paul	8	low	
	sort process	Louis	3	medium	compare per Value, compare method for arrayList
	save tabel	Jens	2	high	from in parser joins all tables, but want to specify one table
	columnng filter	Jens	4	medium	
As a user I want to be able to perform functions	nullvalues	Louis	8	high	Nullvalue exist but does not work well wit h our current functions
	parse functions	Boudewijn	8	medium	
	group by	Boudewijn	4	medium	
	date time functions	Boudewijn	4	high	
As a user i want to see the table I am working with and plot that data to a graph.	tables with same name	Boudewijn	2	medium	
	code in table	Paul	4	high	
	datum formats	Paul	4	medium	
	boxplot	Chris	8	very high	Refactor; needed new library
	state transition matrix	Chris	14	high	
	parser errors	Boudewijn	3	medium	
As a user I want to be able to combine two tables, by connection or via join.	connections	Jens	10	high	
	comparison	Louis	10	very high	
	union	Jens, Boudewijn	5	high	
	joins	Jens	5	low	

Priorities are given by deadline set by group.

very high priority = finished after this weekend

high priority = finished Tuesday

medium priority = Wednesday

low priority = Thursday
