

Sprint reflection 3
context: Health Informatics
group: 3

Tuesday and Friday off. Hemelvaartsdag

User story	Task	Task assigned to	Estimated effort	Done by	actual effort	done	note
As a user I want to specify more constraints/chunking	implement less then (or equals) and greater than (or equals	Boudewijn	5 hours	Boudewijn	1 hour	yes	
	implement and, or and not	Boudewijn	5 hours	Boudewijn	1.1 hours	yes	
As a user I want to be able to perform computations on the data	implement +, -, *, ^, /, sqrt	Chris	10 hours	Chris	10 hours	no	Not yet finished, tests incomplete
	implement + and - for dates	Chris	6 hours	Chris	2 hours	no	Date values not definitive.
	implement functions (max, min, average, count, sum, median, standard deviation,)	Louis	16 hours	Louis	18 hours	no	Big delay due to mismatching code style & structure preferences
As a user I don't understand regex, so I want an other way to specify the header.	Adjust xml reader	Paul	6 hours	Paul	12 hours	yes	Read data in line range. Import MS Excel files
As a user I want to be able to specify connections between and within DataRows	specify a way to describe connections	Jens+Boudewijn	8 hours				Done in the language specification
	store the connections in the data model	Jens+ Chris	18 hours	Jens	13 hours	yes	

additional tasks							
language specification		Boudewijn	5 hours	Boudewijn	4 hours	yes	
product planning		Jens	8 hours	Jens	7 hours	yes	
emergent architecture		Paul	12 hours	Paul	7 hours	yes	To be kept up to date
save multiple tables in datamodel		Boudewijn	5 hours	Boudewijn	1 hour	yes
